COMMITTEE SELECTION(S):

	IESO CONSENSUS BODY	
	IESO International Ad Hoc Committee	
	IESO Residential Mold Assessment Standard	Provides residential structure investigation procedures to identify observable mold and conditions associated with potential mold amplification, including moisture intrusion.
	IESO Educational Mold Assessment Standard	Provides standardized procedures to be used for the investigation of educational structures for readily observable mold or conditions associated with mold amplification.
	IESO Air Filtration Device Field Testing and Validation Standard	Developing protocols for the field testing of air filtration devices.
	IESO Standard Development Committee	Volunteers interested in developing and reviewing draft standards
	IESO Standards Proposal Committee	Reviews proposals for new standards brought to IESO for development.
	IESO Research Committee	Supports the development of standards and outreach through internal research efforts and seeks funding to support research opportunities for the development of indoor environmental standards.
	IESO Third Party Standards Review Committee	Provides guidance to IAQA members and the industry by providing an authoritative source of information regarding which third party represents the best standard of practice within their scope of applicability.
	IESO/RIA Fire Damage Restoration Standard	Identifies best practices and provides guidance for restoration contractors and other companies involved with insurance restoration of fire-damaged buildings and contents

PROFESSIONAL DEVELOPMENT

Please attach a concise biography of two pages or less. Describe your professional background, education, and information on past or present committee work (i.e., AMIAQ, AIHA, ACGIH, ASHI, ASHRAE, BOMA, IAQA, NAHB, NAFA, NADCA.)

Please describe specific areas of concerns that you believe the standard needs to address here, or in an attached document (optional)

Will your company provide financial support for you to participate in the meetings and activities of the Committee?

YES

NO

Are you an IAQA member (IAQA membership not a requirement)

YES

NO

Please list any current certifications and/or designations (CRM, CIE, etc.) and the certifying body (ACAC, IICRC, etc.)

Please identify the industry sector(s) which will benefit from this standard(s):

Design Professional	Dedicates the majority of effort to design and layout of occupied facilities Engineer; Architect; Interior Designer
Facility Operations	Dedicates the majority of efforts to building operations and management Building Manager; Facilities Personal; Building Owner ; Consumer Advocate; Maintenance Engineer
Restoration/Remediation	Dedicates the majority of effort to restoration and rehabilitation of facilities Remediation; Duct Cleaning; HVAC Hygiene; Fire and Water Abatement
Legal	Dedicates the majority of effort to the legal field Attorney; Paralegal
Medical	Dedicates the majority of effort to the health field Physician; Nurse; Medical Tech; Professional
Business Services	Dedicates the majority of effort to providing services to business Marketing; Business Consulting; Publisher; Internet; Information Management
Academia	Dedicates the majority of effort to training and academic endeavors Researchers ; Trainers; Administration; Professors; Students; Instructors
